## Community for Everyone

### About the Event

Many people with intellectual disability tell us that the only people they know are paid to assist them - like doctors and support workers. They say they are lonely and want the chance to make friends and do things that interest them. They want to develop their connections in the local area. They want to be part of a community where everyone belongs!

Community for Everyone is a groundbreaking project that aims to foster inclusion by connecting volunteer social connectors with profoundly isolated people with intellectual disability who share their interests.

We will be hosting information sessions online and face to face. Information sessions will give you the chance to:

- learn about the life experience of some people with intellectual disability
- find about the project
- discuss how you can get involved
- hear about the free training and support provided
- meet others who will be part of the project.

### Join us to be part of the change you want to see!

Community for Everyone is a 2 year project of Hunter Circles and Side By Side Advocacy. You can read more about the project at: <https://sidebysideadvocacy.org.au/community-for-everyone/>
